MBK622A

Mounting bracket for ARCHI10X

Product information:

Purpose-built for the ARCHI10X infra-subwoofer, the MBK622A offers a reliable mounting solution for indoor & outdoor installations. Made from steel, its robust design ensures long-lasting performance. The bracket includes vibration-dampening rubber washers, essential mounting bolts, and a drop safety wire for extra protection during and after installation.
To meet the high standards required for permanent indoor & outdoor installations, we have to create two models, each with its specific application field in mind.
MBK622A/OB – optimized for outdoor installations with stainless construction finished with a powder coating.MBK622A/B – designed for indoor installations, offering a more cost-effective solution with electrophoresis-plated materials and powder coating.

Product Features:
